▲ Infusions® Accent Canopies 24" x 72" in Indigo Surf with side-to-side linking kits

Infusions® accent canopies come in a variety of translucent textures and finishes to create custom looks with standard kits.

KEY SELECTION ATTRIBUTES

- Add dramatic visual impact with multiple shapes or create a small accent area
- Wide variety of colors to fit any design aesthetic
- Unique shape designs can create a variety of visuals depending on the configuration or angle of installation
- Class A fire performance
- Seismic tested and approved
- Select products included in the FAST134 program – ready to ship in 4 weeks or less

24" X 60", 24" X 72" COLORS

Due to printing limitations, shade may vary from actual product.

Fire Performance
Infusions® accent canopies have been tested according to NFPA 286 and are equivalent to Class A Interior Finish as defined by the International Building Code.

Designers and Installers are advised to consult a fire protection engineer, NFPA 13, and local codes for guidance where automatic fire detection and suppression systems are present.

Contact TechLine at 1 877 276-7876 for specific U.S. and Canadian fire performance data.

Design Considerations
Do not cut holes in or drill through Infusions® accent canopies. Doing so may cause the panel to bend in an irregular fashion.

Infusions panels are not approved for exterior application.

Installation Considerations
Do not allow the edges of the shapes to get wet or be exposed to moisture.

Infusions® accent canopies can be damaged by exposure to high temperatures. The temperature of the shapes should not be permitted to exceed 100°F.

Use the assembled canopy weights provided in this table to select mounting hardware that will meet this requirement.

MATERIAL	24" x 60"	24" x 72"
Solid Polycarbonate	21 lbs	25 lbs

Seismic Restraint
Refer to ASCE 7-10, Section 13.5 Architectural Components, for seismic requirements. Section 13.5, item 2 refers to 13.2.3 Consequential Damage.

Suspension System
Canopy-specific hardware must be ordered based on your design plan. For details and some design guidelines, contact TechLine or visit armstrongceilings.com/infusions.

FAST134 Program Considerations
Size of Job Matters: Big jobs, over 2500 SF or 50 pieces for shapes/vertical elements will have longer lead times.

Location Matters: Transit time not included. We are ready to ship in 1 week on FAST1 items. However, transit to the states west of Wyoming may add time.

Distributor Truck Schedule Matters: We rely on distribution to help move products around the country. When speed matters, work with your local distributor to ensure FAST134 service.

Stock vs Made-to-Order Matters: FAST3 & FAST4 items are made-to-order and will ship direct to distributor. FAST1 (stocked items) will go through distribution and depend on distributor truck schedules.

Warranty
